I saved the game, then I accidentally deleted a tournament file, which I didn't realize was an important file, and when I loaded the game up again, it said I had no tournaments saved in the tournament manager. I'm now without any tournaments in the manager, and every time I load the game up I get a dialog box that says "File opening failed". Have not played it as yet as I wanted to wait until the Cracked version of version 9.2.0 hit the Download Zone. So I have been using 9.1.4 to now and will wait for 9.2.0 I do however have a question. Is it possible, when I install this patch, to use the existing saved file data from my version 9.1.4? It was also recently ranked by ESPN in the top ten stadiums in the United States.[6][7][8][9] It was built in a relatively short span of time (from 1969 to 1969) and due to its small capacity (33,400), is easily forgotten in comparison to some of the largest stadiums in the United States.
