nBX has generated intense interest and praise from the public (and the press). It has been called the "iPhone's best app" by Boing Boing. Android 2.0 is not as advanced and is lacking in features (like Real Player support), but as newer and more stable Android devices come out, and especially with the influx of Androids 3.0 and 4.0, expect nBX to improve its ease of use and functionality. Even if you're not on nBX, you might as well learn how to use this great app because some of its functions, such as the location feature, can also be used in Android natively. One of the great things about nBX is its simplicity. Once you figure out how to use it, many of nBX's other features can easily become a standard habit for Android users. Android App Market: The Android Market is the home for Android and Google applications. If the functionality of nBX sounds like it would be useful to you, you're in luck as nBX is available in the Android Market. The Market is a fairly typical Android app store. Unfortunately, it hasn't gotten the publicity and attention that the iPhone's App Store has received, but hopefully the functionality will improve. In fact, some of the features that the iPhone App Store lacks are in the Market. Features & Use: nBX stores your data locally, so if you ever lose your iPhone or wipe it, your data is safe. nBX stores your data locally, so if you ever lose your iPhone or wipe it, your data is safe.
