The Tarnished Throne, the heir to the Elden Throne, was found by the Tarnished One. His heart still sparkles with the warmth of the morning sun. "Heavenly". "Hearts in bloom". It's a world full of charm and noble intentions. But the Tarnished Throne is held by none other than the Evil Demon, Ringel. As the Great War breaks out between the Luminous Lord and Evil Demon, an adventurer named Tarnished One, who has been maintaining the trust of the Luminous Lord, comes into being. Tarnished One and the Luminous Lord, wielding the power of the Elden Ring, take the Tarnished Throne from the Evil Demon Ringel. The Void Dragon, an ancient beast more than 10,000 years old, has fallen asleep. Befriended by the light of the Elden Ring, it was lured from its slumber to save this world. Introducing the Elder Geomancer! The Elder Geomancer is a new type of class that wields the power of the Elder Magic to fight using Geo + Qi + Sword Style. By using Elden Ring, you can combine four kinds of attacks including Bow, Sword, Heavy Sword, and Heavy Bow, and you can freely move around the environment. Take this once-in-a-lifetime opportunity and become an Elder Geomancer. Greetings, Everyone! We are currently working on Adventurers' Rift. game. Get your fix with scary movies This summer when you're tempted to go see the latest 'Scary Movie', think again! Avoiding this summertime blockbuster might save your life! The makers of 'Scary Movie' believe that the scream comedy is a proven box office hit. But many people feel they should know better. According to researchers at the Centre for Stress and Anxiety, more than one third of UK adults believe that watching scary movies can be dangerous, and that it can cause permanent damage. So, just how common are scary movies, and are they really so dangerous? Are you missing out on so much that is genuinely scary? If you're a regular cinema-goer who's wary of being caught staring in front of the screen,

A new fantasy action RPG called Elden Ring that recently came out for the Nintendo Switch. I was shocked at the opening. After seeing the title, you know it's a hardcore RPG. There is no other fantasy action RPG that's even close to Elden Ring. The story of Elden Ring is a fantasy action RPG in the Lands Between where the line between the worlds of the living and the dead is thin. At first, I think it sounded like some fantasy action RPG like Dragon Quest or Final Fantasy. I am very disappointed. Character development is the key to a good RPG. However, the character development system in Elden Ring is not as good as I expected. Basically, there are only level-up skills and class-specific skills. You use the level-up skills to boost the attack power of your class, and you use the class-specific skills to boost the strength of the skills of your class. However, there are no skills that can give you a powerful attack. In addition, there are no skills to increase your attack power even if you have a lot of HP. This game is not even 1/10 of the quality of other RPGs that I have played on a handheld game machine. However, the battle system is my favorite. You can choose whether you want to change your target to attack on the enemy's weak spot or target a specific character in your party. Moreover, you have a system that lets you attack multiple enemies at the same time. You can also decide whether to attack and use items at the same time. It's great! The action scenes are great. It's a great RPG action. The graphics, and soundtrack are great. There's a lot of variety. There are different kinds of monsters to encounter in different situations. You have different classes. It's very interesting and exciting. The excitement increases when you meet other players and travel together. You have to fight against powerful monsters. It's very thrilling. I highly recommend you to play this RPG. Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring

**The Defence Ministry has rejected a Right to Information (RTI) query to know whether China has made any payments to any private company in the recent past and what are the details of such payments. The query was filed in December last year with the Ministry by student Bhaskar Singh, seeking to know if any company had received payments from the Department of Defence. "I am seeking the information about any private company that has received funds from the department of defence in the recent past. The funds might**

have been received on contract, auction or any other way,” Mr. Singh told The Hindu on Friday evening. He said that he obtained the information from the website from which he found that the Defence Ministry had paid more than Rs. 9.63 crore to 12 companies since July 2013. Also read: Chinese-built radar dented India’s claim of invincibility in Himalayas ‘No such facility’ Mr. Singh, who secured 61 marks as the best answer in the recent entrance exam conducted by the Defence Ministry, has also received a reply from the Ministry. “We don’t have such a facility. Further, we are bound by the Defence Procurement Procedure (DPP) guidelines issued by the ministry of defence,” the Ministry stated in its reply. The reply also cited a section of the DPP, which states that the Government can pay the whole cost of the equipment in one go, when it comes to the development of an item for the defence forces. “There is no such facility under the DPP. When the equipment is manufactured by a private company and is acquired from the private sector, it will be as per the contract between the
