This exclusive, behind-the-scenes featurette by EA SPORTS answers questions about how the team put together, saw the technology, and is using it with the game. Watch to learn more. In addition, the first-ever EA SPORTS Player Impact Engine (EPS-I) has been created by the FIFA team. This is the first ever purpose-built AI for computer games. It has created a new form of smart and dynamic gameplay, but the engine has come with some challenges for those that have never developed their own AI before.

Learn more about how the FIFA team overcame these and more in this exclusive interview with the lead AI programmer. Finally, be sure to check out our The Best FIFA 20 Teams article for more detailed breakdowns of each team. DID YOU HAVE AN IDEA WHAT IT WOULD BE LIKE TO BE ON THE FIELD DURING A MATCH? It's incredibly fun to be on the field during a match.

The crowd, stadium and the players all come together for a real "happening". This was a completely new experience for all of us on the FIFA team to design for. HOW DID YOU DECIDE WHICH FOOTBALLERS TO SHAPE THE GAMES AROUND? We all had a fundamental belief that we wanted to create an authentic feeling of football from the moment we started. We decided that our player models would need to change depending on the situation, and this quickly became the foundation for our match engine. The core of FIFA 22 is made up of the players themselves, and it was vital that their movements and abilities were all influenced by their physical and emotional state in real life. Even something as simple as kicking a ball can be affected by the situation in a match. For example, the way in which players take control of a ball after a tackle. HOW DID YOU COMMUNICATE THE PROJECT'S CONCERNS TO THE FILM CREW? The most challenging aspects of the job for us were making sure that the team was able to fully understand the emotion and the action that the game requires. Fortunately, we had some very inspirational people working with us at the start who helped us to distill the actions and emotions that football actually requires and put them into motion. WHAT ARE THE IDEAS FOR THE PLAYER MODELS? We started out by creating a new version of the player models that we were familiar with from
