wanted code and it is good to go, imho. Here an example: `import sys path_to_python = 'path/to/python' try: from os import remove as remove from os import listdir as listdir except ImportError: print('You have Python 2.X...') sys.exit() del_folder_files = [] try: for name in listdir(path_to_python): if name.endswith('.py'): del_folder_files`
