After the completion of the campaign, players can go straight into the new Nazi Zombies game mode. Zombie campaigns in the series feature an "Expedition" campaign mode, where at the end of each level, the player's team has to investigate and contain the zombies, researching more information in the process. World at War also features a new Expedition game mode, named The Ultimate Sacrifice. A campaign mission, the U.S.R. is Under Siege, is the first mission in the game. The second chapter involves a mission to retake Peleliu Island. After Peleliu, the Battle of Okinawa occurs in the Pacific, where the Petty Officer Locke, in a PBY Catalina flying boat, takes part in a raid on three merchant ships. On their way back to base, another Catalina, codenamed Hammerhead, is destroyed by Japanese Zeroes, leaving Locke and his crew alone. The US fleet is assaulted, replicating Operation Ten-Go. Locke's PBY, the only PBY or plane near enough to come to immediate aid, works to rescue as many American sailors as possible by fighting off Japanese PT boats and kamikaze planes. With the PBY almost completely destroyed, more US aircraft arrive and drive off the remaining Zeroes. In the following mission, Miller's squad makes a ground assault on Okinawa, clearing out the Japanese from machine gun bunkers to allow American tanks to progress. With the battle almost won, the Americans storm Shuri Castle

amidst mortar shelling and massive banzai charges. Once inside, they encounter Japanese soldiers surrendering. However, when Roebuck and Polonsky go to search them, they reveal concealed grenades under their clothes, at which point Miller is presented with the choice of saving either Roebuck or Polonsky. The remaining American troops arrive to assist the squad and engage the remaining Japanese soldiers in a battle in the castle center. After Miller calls in air strikes on two buildings, the Americans take Shuri Castle, crushing the last bastion of Japanese resistance in the Pacific War. 5ec8ef588b
