What's New In?

System Requirements:

The art for these, like the Chrono Trigger art, are the work of Satoshi Nagai. All that said, I tried to make sure that these would work on any system I could get my hands on. I found the Acekard 2 and Suikoden to be much easier to deal with than the Super Famicom one. I took a shot with the Chrono Trigger Anniversary art, and it works pretty well on the A-101. I could get a game working on the XSE, although some of the sound and colors were a little off.
