The Secrets of the Old Testament were discovered by Rabbi Moshe Cordovero, the famous Kabbalist, in the late 16th century. This book is therefore written by a man who knows his Rabbinic literature and is well-read in the Talmud, midrashim and other works that have a bearing on Kabbalah, The Secrets of the Old Testament is based on the principle that everything in the universe is connected to everything else, and the purpose of the creation of the universe was the creation of man and his access to the secret of creation. The Good and The Bad — The Old vs. The New: Truth in the Old Testament and Lies in the New, has a very short and well written introduction on the book. The Secrets of The Old Testament is the first book by the author that I have ever read. I found it very interesting and thought provoking. I definitely recommend this book. Moth Chery, Thomas A.
